

Admissions Policy

This policy needs to be read by:	Governors, Parents and staff involved in the admissions process
Review cycle:	Annually
Next review date:	July 2021
The person responsible for this policy is:	The Head of Therapy Services & Admissions
The committee responsible for this policy is:	Every Child Matters Committee

Executive Summary

Moor House takes the decision for students and families to undertake a pre-admission assessment very carefully.

- The admissions policy contains detailed information relating to the admissions criteria and the respective responsibilities of the school and the family of the prospective student. This includes details of the fees charged for assessment.
- It provides information about pre-admission processes from referral through to completion of assessment and decision about suitability of Moor House to meet the prospective student's needs.
- It provides information about the report writing process following assessment and multiagency case discussion in relation to time frames, report content and report writing standards in addition to data protection of the assessment information gathered.
- It gives information about our multidisciplinary team and the services we provide pre, during and post assessments including in relation to tribunal proceedings.
- It provides information about the transition process for new starters.

Aim

To offer available placements to prospective students who are considered to meet the admission criteria and require the specialist education and fully integrated therapeutic provision provided by Moor House.

Objectives

- to state the profile of special educational needs for which Moor House has specialist expertise and the services it offers to support students
- to set out the student admission criteria
- to set out the student admission process and how this is managed by Moor House
- to clarify the responsibilities of Moor House and of prospective families and students.

The Responsibility of the School and College and Staff in Supporting this Policy

- The school and college take the assessment of suitability of prospective students very seriously and are committed to gathering sufficient information to make informed choices in a thorough and unbiased way.
- The school and college will take decisions regarding suitability with a multidisciplinary focus, across teaching, therapy, medical and care.
- Parents/carers are updated throughout the process of pre-admission assessment by a designated admissions' coordinator.
- The school and college will communicate openly and honestly with parents prior to assessment about any concerns they have in terms of suitability.
- The pre-admission team will write a thorough and detailed report following assessment, stating suitability for admission which includes specific recommendations in terms of the student's educational needs and levels of therapy provision required.
- Staff use positive handling and de-escalation strategies as part of our Positive Handling Policy. These strategies would also be used to safeguard students during pre- admission assessment if this was required.

The Responsibility of Prospective Families and Students in Supporting this Policy

- Parents/carers must visit the school and college prior to their referral being accepted for processing.
- Parents/Carers are required to supply all relevant information to aid the school and college in carrying out an assessment and assessing the suitability of the student for placement. Decisions regarding suitability could be postponed and /or reversed in cases where further relevant information comes to light during or after the completion of the assessment, or at any point in the full first term after admission. In these cases, the information will need to be submitted as soon as possible and the pre-admission team will need to review the case in light of the additional information before a decision can be made. Moor House reserves the right to withdraw any offer or issue notice of termination once the student has been admitted.
- In cases where the student has been referred by an external professional, parents/carers will accept as final the decision of the school regarding suitability of a student, rather than the opinion of the referring agent.
- Parents/carers will adhere to procedures during the pre-admission process and actively support the process of admission.
- All placements at Moor House are subject to availability at the point funding is agreed, and to a six-month probationary period.

Moor House Expertise and Services

- Moor House provides an effective and holistic education for children and young people aged 7 to 19 with severe speech and language disorders and associated difficulties.
- Our teaching, learning and therapies involve the use of specific methodologies and approaches which are known to be effective for this profile of need.
- Our staff have specialist knowledge and skills in the teaching and learning of students with severe speech and language disorders and many have additional formal qualifications in this area of special educational needs.
- Whilst we recognise that many children and young people may benefit from our high teacher/student ratios and the caring, nurturing environment that we offer, we are very careful in recommending our provision to Local Authorities and do so only for those students which we feel require our provision in order to meet their full academic, social and emotional potential.

Criteria for Admission

Moor House may be the right place for a student if:

- the student is between the ages of 7 and 19 and has a severe and persisting language disorder across the range of language domains. This may include a speech impairment/disorder.
- the student has a language disorder or an established diagnosis of Developmental Language Disorder (DLD), Language Disorder (LD), Specific Language Impairment (SLI), Language Disorder associated with ASD, Language Disorder associated with brain injury, Language Disorder associated with acquired epileptic aphasia or Language Disorder associated with sensori- neural hearing loss.
- the language disorder must be the student's primary barrier to accessing the learning environment and the development of life and social skills.
- the student's language disorder is not associated with intellectual disability.
- the student needs a mainstream curriculum which is individually designed and delivered for students with persistent speech and language disorders.
- the student needs intensive and integrated speech and language therapy intervention.
- the student may have additional difficulties frequently associated with a severe speech and language disorders. Examples may include literacy difficulties, fine and gross motor difficulties (such as dyspraxia and dysarthria), verbal dyspraxia, impaired life and social skills, difficulties with attention (such as ADHD), and auditory processing difficulties.

Applications for Year 15

The school's Post 16 provision provides educational provision for students in years 12, 13 and 14. Moor House students wishing to remain at the school for year 15 are required to apply to the school and obtain a formal agreement that Moor House is still an appropriate educational placement for

the student. This view will need to be supported by the student's placing authority. If this agreement has been reached, the placement in year 15 will be subject to the school obtaining exceptional approval from the Department for Education (DfE). Moor House cannot apply for this approval unless all parties are in agreement. If DfE approval is not obtained, the student will not be able to attend Moor House in year 15. If parents are challenging the placing authority of a year 15 placement, Moor House may apply to the DfE for exceptional approval but this will only be valid while the appeal is in process. Such an application will only be made if a place can be made available and, in the case of a residential placement, that accommodation is also available.

Moor House does not provide educational placements for students in years 16 and 17.

An Overview of the Process of Pre-Admission

i. Referral

We have an open referral system, and will accept referrals from parents/carers, external professionals and Local Authorities.

ii. The School Visit

All prospective students' parents/carers must attend for a tour of our school prior to a referral being processed.

iii. Pre-admission Paperwork

Specific written information must be submitted prior to a decision being made about the suitability of a pre-admission assessment. These include a current Education, Health Care Plan or equivalent, a recent speech and language therapy report, educational psychology reports, any clinical psychology/psychotherapy reports, current school reports including current academic attainment levels, occupational therapy reports if appropriate and any relevant medical information.

iv. Pre-Admission Paperwork Review

Once all of the necessary documentation is received, the paperwork is reviewed by the members of the Senior Management Team (SMT). As well as looking at the information against the criteria above, there are other factors in terms of suitability which need to be considered e.g. gender ratios of previously accepted students, planned class structures and staffing for the next academic year, residential versus day placement availability. A consensus will be reached across the SMT following this review as to whether an assessment is recommended. We do not recommend an assessment in cases where we judge, based on the case paperwork, that the student does not or may not meet the clinical profile of our admissions policy. We have an admissions team who are specifically dedicated to this process and all decisions are taken from a multi-disciplinary perspective.

If further information is felt to be required, the decision may be postponed until this information has been received. In more complex cases, a preliminary screening or visit to meet the prospective student either at Moor House or in their current educational provision may be recommended prior to deciding whether a full pre-admission assessment is appropriate. This may be to carry out a preliminary observation/assessment of the student and/or to discuss the case with parents/carers and/or those professionals currently involved with the family. Parents/carers are kept updated at each stage of the preadmission process as to the recommended next steps.

The Pre-Admission Assessment

Once a pre-admission assessment is recommended, a timetable for the assessment is individually tailored to each case. Factors such as the complexity of the profile of the prospective student as well as whether the student is applying for a day or residential place, whether they are school-aged or are applying for a place in KS5 will impact on the length and type of assessments required. The minimum standard required length of an assessment is 2 days and includes a full speech and language therapy assessment, an occupational therapy assessment, a maths and literacy assessment, classroom observation, play observations (if age appropriate), observation of the student's interaction with peers across different contexts and an informal "life skills" assessment. Exceptionally the assessment may also include staff from the school observing the student in their current educational setting if it is considered that such a visit is required. All students applying for residential placements are assessed in residential care time. If a student undertakes a day placement assessment and at a later stage wishes to be considered for a residential placement, he or she would have to undertake further assessment in residential care time.

The Admissions Team

A highly specialist team of multi-disciplinary professionals conducts the pre-admission assessments. This team includes an experienced Speech and Language Therapist, an Occupational Therapist, a Specialist Teacher with additional qualifications in literacy intervention, an Occupational Therapy Assistant as well as the class or subject Teacher who observes the student in specific lessons. The school also has dedicated admissions co-coordinators who manage the pre-admission process at an operational level and are a key link for parents/carers during the assessment process. The admissions coordinators seek all necessary consent forms and complete a risk assessment prior to the first assessment day. All of the information held on prospective students is stored and dealt with confidentially by this dedicated team and no information is shared with any external agencies without explicit prior consent from parents/carers. This team is experienced and skilled in managing complex communication situations between different agencies as required.

Decisions about Suitability

Following the assessment, a detailed case discussion is held with members of the multi-disciplinary team involved in the process. A decision is made regarding the suitability of the prospective student provided that the team are sure that all of the necessary information has been gathered in order to make that decision. Regardless of the referral path, the parents/carers of the prospective student are invited to attend a feedback meeting usually chaired by the Principal and the Head of Therapy. Depending on the decision and/or the results of the assessment, other staff may attend this feedback meeting if it is deemed useful to the parent/carer.

Pre-Admission Assessment Reports

Following all assessments and regardless of the decision regarding suitability, a report is prepared by the pre-admission assessment team. This is a very detailed report which sets out all of the aspects of the assessment, the results and the implications for the student's learning. It also includes specific recommendations across all areas assessed in terms of the educational provision that the student requires including additional types of therapy. If further assessments are recommended, these will also be noted.

Where there is consensus that the provision at Moor House will meet the needs of the prospective student, a letter stating this will be issued on the day of the feedback meeting. Parents/carers are also given a summary of the notes of the discussion meeting with the test results outlined for their information whilst awaiting the full assessment report. The timescale in which the report will be issued is also discussed at the feedback meeting. The letter, final assessment report or verbal assurances do not amount to a formal offer. This will be made once funding has been agreed and contracts signed.

**Please note: There is a fee for pre-admission assessment (see appendix 2)*

Regrettably, there are a few occasions when despite our best efforts, it is decided that our provision will not meet the needs of the student. We appreciate the frustration and upset that parents/carers feel on these rare occasions and we aim to work together closely with the family to advise on other types of provision that may be more suited. Where the provision is not deemed to meet the student's needs, the report aims to support and guide the parents/carers in their next steps of finding an alternative provision for their child.

Formal offer

If Moor House is deemed to be a suitable placement for the prospective student, a formal offer letter will be issued by the school, normally within five working days of the feedback meeting. The offer letter outlines the provision student will receive and includes the schedule of fees specifying the cost of Moor House provision per annum. The offer of placement, specified in the offer letter, is valid for six months from the date of the assessment. The date of expiry of the offer is clearly indicated in the offer letter.

The school recognises that some families are unable to secure their child's placement at Moor House in this period due to circumstances beyond their control. The school will consider any parental request to extend the time of the offer, and extensions will be allowed at the school's discretion on consideration of all of the circumstances of the particular case.

For students seeking a transition placement into year 7 (for secondary transition) and into year 12 (post 16 transition), when the offer stipulates placement for a date in the future, the offer will be valid for two months from the intended start date for the student.

Misuse of the Statutory 'Duty to Admit'

It is expected that Moor House will only be named in Section I of a child's EHCP once a place has been offered. In the event that Moor House is named in Section I when a place has not been offered, the school reserves its right to take appropriate action, whether legal or otherwise, to protect its position and ensure that children are only admitted to the school when it is deemed that they have met the criteria within this policy and a formal offer has been made.

Collaborative Working with all Agencies and Tribunals

Moor House supports parents/carers who are enduring the process of appeal to seek different provision for their child. We are skilled in working collaboratively with all agencies to ensure the best provision is secured for the student.

**Please note: There is a fee for us to attend tribunals to cover staffing replacement costs. (See appendix 2)*

Transition to and Starting at Moor House

Once funding has been agreed, availability of a place confirmed and a contract has been signed between Moor House and the Local Authority, a new student can start at Moor House at any point during the academic school year if this is deemed best for the child and the appropriate curriculum can be provided. For new children starting at Moor House during the academic year, a transition timetable is individually tailored to each case.

All new students starting at the beginning of the academic year are invited to attend our “Admissions’ Day” together with their parents/carers during the summer term prior to their first academic year. On this day, families meet with the members of the Senior Management Team and where possible, the team that will work with their child and the students themselves are orientated to the school environment. The students also have the opportunity to meet their peer group for the next year. The focus of the day is to build relationships with the families so that they and staff at Moor House can work together to meet the needs of their child. Parents/carers are given the opportunity to provide additional information about their child and find out more about the school curriculum and policies.

In the case where funding is not yet agreed, parents/carers are still invited to attend the Admissions Day. We do not recommend that the student themselves attend in case the placement is not secured. Where possible, we aim for all new students to start at Moor House in a phased manner, during the first three to four weeks of the autumn term. Students are scheduled to start in small groups to ensure that they are supported fully in this transition. Parents/carers of residential students are encouraged to telephone their children regularly and frequently and are always encouraged to speak to staff if they have any concerns resulting from telephone conversations with their children.

Availability of places

If the demand for PAA assessments and places at the school and college exceeds the number of places available, the families will be informed of this. If they wish to continue to wait for a place their name will be put on the waiting list in the order that their applications were received.

When offering residential places to prospective and/or current day students, the school makes offers based on the following criteria which are determined by our residential strategy:

- availability of residential rooms
- order of applications received
- child’s age
- gender mix
- availability of the residential placement throughout the child’s education at Moor House

If a residential place is not available, the families will be informed of this prior to the pre-admission assessment. If they wish to continue to wait for a place their name will be put on the waiting list.

In rare cases where a residential place is not available but a day place is available, and the prospective student meets the criteria for PAA, the prospective families will be offered the pre-admission assessment if they can make arrangements for their child to attend Moor House as a day student.

Appeals

Appeals against decisions made during the admissions process, whether in relation to the decision to undertake a pre-admission assessment or to offer a place, should be directed in the first instance to the Principal.

Covid-19 Pandemic

At the time of the most recent review of this policy there were evolving restrictions in place due to the ongoing Covid-19 Pandemic. From 23rd March 2020 this policy is subject to amended arrangements as set out in Appendix 4, with such arrangements to continue during restrictions that have been imposed as a result of the Covid-19 Pandemic.

Review

This policy will be formally reviewed annually by the Head of Therapy Services and Admissions and the Admissions Team, to check that it continues to represent our aims and practices.

This policy links with the following documentation:

- Equality Act (2010)
- Children and families Act (2014)
- Special Educational Needs Code of Practice (2001).
- Special Educational Needs and Disability Code of Practice; 0 to 25 years (2014)
- Moor House School & College Data Protection Policy (2020)
- Moor House School & College Retention and Archiving Policy (2020)
- Moor House School & College Child Protection and Safeguarding Policy (2020)

Summary of the Pre-Admission Assessment Process and Fees

The pre-admission assessment fee is £1,250 (deposit of £250 two weeks prior to assessment and the remainder of the fee on the day of assessment) and includes:

Two day pre-admission assessment with:

- full clinical assessment by a Specialist Speech and Language Therapist
- full clinical assessment by an Occupational Therapist
- educational assessment through class placement and feedback from Specialist Teacher
- Math and Literacy Assessment
- unstructured observation in dining room, playground and after school time

Following the assessment parents/carers/LAs receive:

- clinical feedback including an explanation of formal assessments and the predicted content of the assessment report
- an offer letter with the school or college's fees if applicable
- comprehensive multidisciplinary detailed report

If a place is not offered, a letter will be written to that effect.

Parents/carers having difficulty meeting the cost of the assessment can request a form for Financial Assistance from the Admission's Team.

Summary of the Terms and Conditions that apply for attendance at Tribunals and fees

1. Time at the tribunal is charged at a rate of £300 per person for the day. The initial £300 to be paid four weeks prior to the Tribunal date.
2. Visits to nominated schools that may be required before the Tribunal will be charged at £75 per hour
3. Travel expenses will be charged.
4. If overnight accommodation is required expenses will be charged.
5. In the event of a scheduled tribunal hearing being cancelled, the following fees apply: -
 - £150 if it is cancelled before the day of the Tribunal.
 - The full amount will be refunded if the Tribunal is cancelled with more than two weeks' notice.

Protocol for the pre-admission assessment process for June and July 2021

BACKGROUND

Moor House School & College has made amendments to its pre-admission assessment procedure due to restrictions relating to Covid-19. The normal way of delivering pre-admission assessments is not possible due to current government guidelines for full reopening of school in September 2020.

PRE-ADMISSION PROCESS (Day Student)

Stage one

Thorough review of all relevant information and reports about the prospective student from parent/guardian and their current school by the senior management team to decide if the student will be offered a pre-admission assessment remains the same.

Stage two

Tele-health meeting with the family to inform the family of the pre-assessment process and the protective measures in place in relation to COVID 19.

Stage three

The Pre- admission information and data gathering documentation has been extended to provide additional information and consists of:

- a. Covid-19 Risk assessment with information on safety procedure
- b. Medical Information
- c. Risk assessment in relation to child's behaviour (parent questionnaire)
- d. Risk assessment in relation to child's behaviour (school questionnaire)
- e. Full case history
- f. Children's Communication Checklist (parent to complete)
- g. Case History Form – for you to complete about your child.
- h. Sensory Profile Measure– (parent and Teacher to complete)
- i. Adaptive Behaviour Assessment System – (parent and Teacher to complete)
- j. Strengths and Weaknesses Questionnaire– (parent and Teacher to complete)
- k. 'Pragmatics Profile' (a subtest from the Clinical Evaluation of Language Fundamentals 5th Edition language assessment) to be completed by parent
- l. Behaviour and learning style schedules to be completed by child's current teacher/school
- m. Child's hobbies and interests completed by the family
- n. Specialist teacher to set up telephone conversation/Zoom meeting to discuss child's learning and support provided in the current school.

In cases where informed decision regarding suitability is difficult to reach, the following will be considered:

Extremely medically vulnerable student unable come to Moor House for individual assessment due to COVID 19

The Principal and HOTA will review the case and decide if reasonably informed decision regarding suitability can be reached based on:

- ✓ documentation received,
- ✓ discussion with the child's current school
- ✓ and tele-health assessment.

If the decision cannot be reached, the assessment will be postponed to a later date when Covid 19 restrictions are lifted.

No consent given by parent to contact child's current educational provider/ child is out of school

The Principal and HOTA will review the case and decide if reasonably informed decision regarding suitability can be reached based on:

- ✓ the documentation received
- ✓ and assessments.

If the decision cannot be reached the assessment will be postponed to a later date when Covid 19 restrictions are lifted.

Stage four

One day assessment in Moor House School to include full 1:1 individual Speech and Language, Occupational therapy and literacy and numeracy assessment. The assessment will be conducted in the Pre-Admissions Zone. OT assessment will be conducted in the Gross motor skills room. Literacy and numeracy assessment to include the TILLS and ABAS 'functional academic skills' section to provide further information about academic skills.

Safety procedures will be operational as per school's risk assessment and pre-admission's protocol.

Stage five

Following completion of the all four stages and collation of all documentation and assessment questionnaires; a multidisciplinary feedback session will be held with all professionals involved in the pre-admission process, the Principal and the Head of Therapy Services. During the meeting the child's needs will be considered and the provision to meet those needs will be mapped out.

We will feedback our findings and decision to the parents/referring agent within two working days a conference call or tele-meeting due to the current restrictions in place.

If we are able to offer child a place at Moor House, an offer letter from Moor House will be issued within 5 days and a full pre-admission report within 8 weeks. Due to infection prevention measures the current PAA protocol does not include assessment of students' learning in Moor House classrooms. Thus all offers of placement are subject to a 6-week review of placement, once the student has commenced his/her education at Moor House.

PRE-ADMISSION PROCESS (Residential student)

A residential assessment will not be able to take place at this time due to the current restrictions placed upon the school as a result of COVID—19. A residential place will be held for students requiring residential placement and a residential assessment will be arranged as soon as restrictions have been lifted or/and as soon as the student is able to attend Moor House.

TELE-ASSESSMENT PRINCIPLES (for extremely vulnerable students)

It is understood that delivery of tele-assessment may require modifications to techniques, equipment and setting. Regardless of any modifications made, therapist and teachers will deliver services in accordance with professional standards and the principles of evidence-based practice (i.e. current best evidence, clinical expertise, and student’s needs and outcomes). The assessors will use a recognised Q-interactive® licence and other recognised assessment protocols to assess your child.

In tele-sessions, these modifications mean that parents/carers at the home need to:

- a) have equipment to receive tele -assessment
- a) make sure that their child is in a distraction free and quiet environment to receive tele-session.
- b) set up a virtual background (if the platform and your device have this feature)
- c) assist their child in engaging with activities throughout the tele-assessment (not answer for the child or give clues to the child; standardised assessments require the child to respond independently)

Moor House School & College’s organizational values, policies and ethics apply to the delivery of this amended protocol. Moor House School & College and professionals understand requirements for privacy and confidentiality associated with provision of services.

Safety measures for on site assessment

Admissions department risk assessment and prevention procedures for PAA assessments (this forms part of the whole school and college risk assessment)	
Testing (number 1)	<ul style="list-style-type: none">• Lateral Flow Tests (LFT) will be sent to all children and parents coming on-site for assessment and this will be administered with the student by parents/carers. If the result of the test is ‘positive’ for either parent or child, then the child cannot come for assessment onsite and the date for assessment will be rescheduled.• If the results of the LFTs are ‘negative’ the LFT will be shown to the admissions team upon arrival to the school

<p>Good hand hygiene practice (number 2)</p>	<ul style="list-style-type: none">• Child & parent/carer to enter building via old reception & to be met by Admissions SLT and taken to the Admission's zone.• The greeting SLT/Teacher will measure parent and child's temperature.• Hand sanitiser will be applied to the child and parents' hands• Accompanying parent/carer and child over the age of 11 to wear non- medical face mask. If parent arrives without the mask, those will be provided by the school at the cost of £1.00 per mask.
--	---

	<ul style="list-style-type: none"> • Parents and students to wash their hands in EPG suite sink upon arrival and then to apply hand sanitiser on arrival at therapy treatment room/space. • The staff will wear masks and visors whilst talking to parents. • Child to bring own lunch & snacks including refillable water bottle. • Any medication needed by the child on the day will be clearly labelled & with original packaging. Parents to accompany child into PAA Zone and depart after quick update & contact details given to SLT. • Hand sanitiser to be applied at the end of each assessment session and then hands washed in 'EPG zone' <p>Gross Motor room:</p> <ul style="list-style-type: none"> • OT conducting a PAA assessment in Gross motor room, OT to wash hands in PAA zone and/or in the WC sink in the gross motor room prior to commencing assessment and at the end of assessment • No other students and adults can be present in the Gross Motor room during the assessment. If support is needed another adult will be in the adjacent room observing through the glass. • PAA student to wash hands in EPG zone and apply hand sanitiser in the Gross motor room. • OT to use visor, gloves and apron during the assessment • Note: NOT to use sink in Gross Motor (GM) room corridor for handwashing as this is to be used for washing resources/equipment
<p>Good Respiratory Hygiene during assessment (number 3)</p>	<ul style="list-style-type: none"> • Tissues and lidded bins available in all treatment rooms/spaces to support pupils and staff to follow the 'catch it, bin it, kill it' routine • Hard items that become contaminated with any bodily fluid should be wiped with alco wipes/spray

	<ul style="list-style-type: none"> • Student and staff to use hand sanitiser following using a tissue • Therapist to wear Radio Aid if working using a visor with deaf students (see radio aid and hearing aid risk assessment and cleaning procedure) • Therapist/teacher to use visor, gloves and apron during the assessment
<p>Enhanced cleaning (number 4) <i>Environment cleaning of treatment space</i></p>	<ul style="list-style-type: none"> • All hard surfaces including chairs to be wiped with alco wipes/spray at the beginning and end of all sessions by therapist/teacher • Door handles, light switches etc to be cleaned as part of housekeeping protocol. If a student touches these surfaces having not just washed hands or used sanitiser, they should be wiped by with alco wipe at the end of the session. • Gross motor room will require housekeeping to clean, <u>need a deep clean once PAA assessment is finished (Monday lunchtime)</u>
<p>Enhanced cleaning (number 4) <i>Individualised resources, equipment cleaning and storage</i></p>	<ul style="list-style-type: none"> • All therapy PAA assessment spaces/rooms to be clutter free. Resources to be kept in cupboards and not left out • ONLY items that can be easily cleaned should be used i.e items that can be thoroughly cleaned by one of the following methods – alco wiped, washed in soapy water and/or dishwasher . • Items/resources that cannot be easily cleaned are to be used by one user (PAA student) and must be left unused for a period of 48hrs (72 hours for plastics) between use by different individuals • It is therapy staff responsibility to ensure items used in sessions are clean and in good condition and without risk of harm from contamination and report if not. • All items should be cleaned with alco wipes/alco spray immediately after use by a single PAA child. If for any

	<p>reason this is not possible or addition washing in hot soapy water, washing machine or dishwasher is required, place in container provided within each room. No specific PPE needed when wiping down.</p> <ul style="list-style-type: none"> • All staff and students to use their own stationary/resources <p>OT Equipment:</p> <ul style="list-style-type: none"> ✓ OT/A staff to wash and clean any items in used by the PAA child at the end of assessment. Therapist doing clean to wear apron and gloves which are to be disposed of in lidded bin with paper towels. Jay cloths to only be used for one cleaning cycle and disposed of with gloves and apron on completion. ✓ Where possible cleaned items to be left for 48 hrs between uses or 72 hrs for hard items such as plastics. Items to be sorted in Gross motor room corridor cubby hole, with laminated sheets with date cleaning took place. Once stored for 48/72 hrs items to be returned to appropriate cupboard. ✓ Therapist to complete cleaning log for resources used and cleaned ✓ Tennis balls to only be used by one student before wiping with alco wipe and being quarantined for 72hrs ✓ Fabric items are not to be used ✓ Any crockery, cutlery and washable kitchen equipment to be washed in dishwasher or hot soapy water immediately followed by a cold rinse. ✓ Only use disposable washing up cloths and paper towels to be used for washing and drying up.
<p>Minimise contact (number 5)</p> <p><i>PAA OT assessment spaces</i></p>	<p><i>Admissions is 'zoned' in the EPG suite</i></p> <p>Gross Motor room will be used for OT PAA assessment- no other students of staff will be in the room during the assessment</p>

SLT treatment spaces	<p>All SLTs & education PAA assessments will be conducted in EPG suite (PAA zone)</p> <p>PAA child will use KS2 bubble toilet. No other school children can be present in the toilet.</p>
Staff/Student contact during sessions	<ul style="list-style-type: none"> • Where possible staff to sit alongside or at 90 degrees to the student and observe social distancing and regular handwashing and hand sanitising • Therapist/teacher to use visor and gloves during the 1:1 assessment • Gross motor activities done outside wherever possible
