14 September

Dear Parents and Carers,

Moor House School & College regularly provides clinical placements to trainee Speech and Language Therapists and Occupational Therapists from a range of Universities as part of their pre-qualification clinical education.

When on placement the Student Therapists support MHSC Therapists by completing assessments, delivering therapy groups and supporting our students within the classroom. In all cases, the trainees' work is fully supervised by the Moor House Therapists.

If you do not consent to trainee Speech and Language Therapists and Occupational Therapists working with your child in the way described above, please inform your child's key SLT. Alternatively, you can contact Sian Smith (smiths@moorhouseschool.co.uk) who organises clinical placements with link Universities for further information.

Sian Smith (she/her)
Highly Specialist Speech and Language Therapist
Moor House School and College
