## Winter PE Kit and Footwear

Dear Parents and Carers,

As the weather draws in, it is important to note how this will impact PE lessons over the autumn and into the spring term. With the construction works well underway to improve facilities at Moor House, it is currently necessary to share the sports hall gym as part dining room. Therefore, we are restricted to the activities we can offer indoors and somewhat at the mercy of the British climate. For this reason, it is essential that all students come fully prepared with the right kit for their PE lessons.

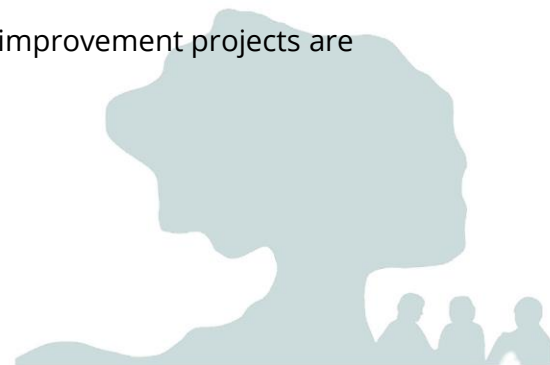

All students from Key Stage Two to Key Stage Four will require warm joggers/tracksuit bottoms, plain white T-shirts, plain white or black sports socks and a plain navy or black long-sleeved sports top. We also recommend that students attend school in a suitable winter coat, preferably waterproof. Unfortunately, these items may be returned wet and muddy following an outdoor PE lesson, so it is important that they have spare carrier bags and a spare PE kit available, in case the worst weather should occur.

Footwear is also a fundamental consideration. We advise that weatherproof footwear with good grip is best. Whilst we take part in tag rugby, those who have studded boots may wish to bring these for better support and grip on the playing field. Having said this, students wearing football boots must have moulded or rubber studs and these cannot be worn in the MUGA, the outdoor AstroTurf, unless specifically designed for all-weather Astro. Following the half term holiday, students will return to participate in basketball to be played in part outdoors in the MUGA and also in the sports hall gym. The same will be true for handball which will take place following the Christmas vacation.

We thank you for your support and understanding while the improvement projects are taking place.

Kindest regards,

Mr M Crowhurst  
He / Him  
Head of PE
