Dear Parents / Carers,

Keeping children and young people safe online

Using the internet has many benefits for children and young people. It is a great way for them to learn, keep in touch with friends and have fun by playing games or sharing images. However, there are risks when using the internet to be aware of, which include:

Online grooming, exploitation or bullying by others online.
Inappropriate content (such as nude, violent, or distressing images or words).
Being asked to share personal information or images.

The following link contains information on how to keep your children safe online, guidance for sharing images, online gaming and how to report any concerns.
